"I've been to hundreds of seminars in my lifetime this was by far the most outstanding. Thank you again...There's nothing like working through charts with an actual person who can point out events and formations of interest. Thank you! ...What a wonderfully thoughtful presentation. I learned more today than I have in the last fifteen years of studying Technical Analysis on my own ... I've been a Worden Customer for 20 years. Your classes get better and better."
